One of the benefits of employment through C&S Employment Solutions has always been the doors that can be opened and opportunities that can happen as a result of being placed on a job by C&S. This can be illustrated in a number of ways and by a number of examples depending on the goals and individual circumstances of the employee and the employer.

For example, an applicant may come to C&S Employment Solutions with a career in mind; but may not be sure exactly what direction to take, what specific job they want to apply for and/or exactly what they want to do. In this case, C&S can provide guidance, direction, job options and work with the applicant to make the best placement that fits the individual's needs and sets them up for success.

There are countless examples of employees who started working through C&S Employment Solutions that are now permanent employees at the company introduced to them by C&S. This is a win-win situation for all involved and why the staff at C&S takes the time and effort to place our employees in jobs that have potential to be beneficial and successful for both the employee and the employer.

It is our pleasure to share two specific examples of success as a result of placement by C&S Employment Solutions.

First story is that of **Susan Gould**. Susan first came to C&S back in 2015 and after a brief period of time, was hired

permanently by her assigned place of employment. She went on to work there for 4 years before moving out of state.

Eventually, Susan moved back to central Missouri to be closer to her family at which time, she applied again at C&S and was placed on a job assignment. And, like before, Susan was hired permanently by her assigned employer.

Susan was grateful for the opportunity and credits C&S for helping her find a job that she enjoys and meets her needs.

Another C&S success story is that of **Terry Myers**. Terry found employment through C&S Employment Solutions back in 2020; and after less than six months, accepted permanent employment with his temporary employer.

Just recently, Terry reached out to C&S to express his appreciation for

connecting him with what he described as a "new career at a company that I greatly enjoy working for!" He went on to say how he has been able to grow

with the company and expand his career and skills. "It all started with my first visit to C&S...the team at C&S does great work and I'm sure I am one of many success stories that started with C&S," stated Terry.

Thank you to Susan and Terry for sharing their stories and we wish them continued success!
